Kitchen **Compliments**

Exceptional faucets are only the beginning

Kitchen Compliments is about creating a kitchen without compromise. Moen offers exceptional products that deliver all the style and functionality you want in a dream kitchen—now with the convenience of getting it all from one, trusted brand. That means guaranteed style compatibility, guaranteed quality and guaranteed satisfaction.

Create the perfect kitchen that earns compliments. Exclusively from Moen.

Design is more than style. Consider faucet functionality.

Hands-free convenience makes routine tasks faster and easier.

Pulldown or pullout spouts provide easy access in and around the sink.

High-arc designs are perfect for filling larger pots.

Two-handle faucets enable precise adjustment. Single-handle models offer easy, one-hand operation.

The Pot Filler is the ultimate epicurean luxury in the kitchen.

Bar faucets bring water to entertainment or prep areas.

Determine the faucet mounting options for your sink.

- Faucets are measured by the distance between mounting holes, centre-to-centre.
- Most two-handle kitchen faucets are 8-inch centres, while bar faucets are 4-inch centres.
- If you chose a single-hole mount faucet, extra holes can be covered by a deckplate or used for accessories such as a soap dispenser.
- Undermount sinks allow unlimited flexibility with faucet position.

1-hole

8" centres with accessory hole

3-hole, 8" centres

2-hole, 4" centres

Undermount Unlimited options

Wave goodbye to chores and hello to hands-free convenience.

Imagine the convenience of having a kitchen faucet that can sense what you're trying to accomplish and respond to what you need, the moment you need it. MotionSense™ does.

With MotionSense, you can use simple hand movements to turn the water on and off. This hands-free convenience lets you speed through everyday tasks with greater ease and efficiency. Plus, being able to use the faucet without having to touch it helps you control the spread of dirt and germs—reducing the chances of cross-contamination and minimizing the need to repeatedly clean your faucet.

Three ways MotionSense™ responds to you.

1. Pass your hand over the **Wave Sensor** at the top of the faucet spout. MotionSense will turn your faucet on and run water until you turn it off. Great for filling large pots and washing dishes.
2. The **Ready Sensor** detects when you place your hands or an object below the spout and supplies water only until you exit the sensor zone. That means you'll use water more wisely when you need to wash your hands or rinse a plate.
3. Use the familiar **handle** at any time to turn the faucet on or off, or to adjust the water flow and temperature.

reflex Effortless redefined.

Designed so your faucet acts as an extension of your body, Reflex® is an innovative system of features and enhancements that improve overall hose and sprayer operation for an exceptionally convenient experience. Less effort. Less resistance. More control. Reflex responds to you.

Self-retracts and securely docks.

Inspired by real users, Moen faucets with Reflex self-retract and securely dock, AND provide smooth operation and easy movement, offering a more convenient kitchen experience every day.

Retracts automatically

With Reflex, you just release the sprayer head and it will self-retract—saving you time and effort.

Self-docks securely

Reflex keeps your sprayer head in the fully docked position when not in use so your kitchen always looks neat.

Responds effortlessly

Easily unlatch and extend the sprayer head with minimal resistance.

Operates smoothly

Thanks to an ultra-flexible hose and hose joint that swivels to provide a wide range of motion, Reflex goes where you go.

Spot Resist™ Finish

At Moen, we know that keeping your kitchen faucet free of fingerprints and water spots is an ongoing battle. It's not surprising, because the kitchen is the most used room in your home.

That's why we developed the Spot Resist Stainless finish. Spot Resist does just what it says—resists fingerprints and water spots—so you'll have one less thing you need to clean every day. This attractive finish maintains the brilliance of your faucet so you can spend more time enjoying your home ... and less time cleaning it. And when it is time for periodic cleaning, Spot Resist easily wipes clean.

With four collections to choose from, there is a MotionSense™ faucet to match any décor.

NEW! STō® with MotionSense™

STō®, Align®, Brantford™ and Arbor® with MotionSense

Getting the hands-free convenience of MotionSense in your kitchen doesn't mean sacrificing when it comes to style. With four collections to choose from, there is a MotionSense faucet to match any décor.

Custom Options and Collections

Bath

Surround yourself in luxury.

Whether you're searching for clean, contemporary décor, Old World styling or anything in between, Moen has a bathroom collection to suit every taste.

Our bathroom suites range in style from traditional to modern, encompassing all styles in between. They're also available in a variety of on-trend finishes and styles including single- and two-handle faucets, Roman tub faucets, garden tub faucets, bidets and trims.

All Moen lav faucets feature a flow-optimized aerator, using up to 30% less water (compared to traditional faucets) without sacrificing performance, are certified to meet WaterSense® labeling criteria and contribute towards valuable LEED® points.

Arris™

Who says curves can't be contemporary? Arris faucets and accessories feature a cylindrical look that's thoroughly modern. Sharp angles add distinctive contrast to the tubular lines that dominate each piece in this collection.

The easy indulgence.

The innovative ioDIGITAL® controller lets you fine-tune water temperature and flow with electronic precision. And once you've dialed in a great spa experience, you can recreate it any time you desire with the touch of one button. Add the convenience of an optional remote control to turn on your bath or shower from across the room or while still in bed. Best of all, Moen makes this technology easy to understand and simple to use—because that's the way a spa should be!

VERTICAL SPA

The ultimate blend of technology and luxury. The ioDIGITAL vertical spa controller puts you in command of precise temperature and flow, four custom presets and one-touch activation of multiple water spray outlets as well. Switch from shower to body spray, tub spout, hand shower or rainshower. The choice is yours.

SHOWER

ioDIGITAL can make your shower feel great even before you get wet. Call up your preferred temperature and flow at the push of a button, and wait for the LED indicators to tell you when your shower matches your settings. No cold shocks or scramble to adjust handles the instant you step in.

ROMAN TUB

Imagine having someone to draw you a bath every day. ioDIGITAL will. Push your preset, close the drain, and go light a few candles. ioDIGITAL will have your tub filled to the perfect temperature and level whenever you're ready to slide in.

Custom Showering Options

Moen® components are designed to work together so you can create a complete customized showering system using several options.

MAKE IT YOUR OWN

As the leader in the industry, Moen offers you the ultimate flexibility to create just about any showering experience you can imagine. You'll even find innovations that use water more efficiently without sacrificing performance. All in the look you love. Which means it's easy for you to turn your dream design into a showcase shower.

Ask your showroom representative to help you assemble the right products to match your idea of extraordinary.

With an Isabel® Multi-Function showerhead, you can go from a relaxing rainshower to a concentrated rinse at the flip of a lever. Immersion® Rainshower Technology creates three times more spray power than traditional rainshowers for better performance.

For added indulgence, install a ceiling-mounted showerhead to replicate the tranquil, water-drenching sensation of being in a soothing rain shower.

VERTICAL SPAS

Our vertical spa system delivers the premium experience you demand: maximum force, flow and coverage. And let's not forget pure design freedom. They're all critical to your enjoyment of a relaxing shower. And they're all front and centre in the Moen vertical spa experience.

Create nearly any vertical spa imaginable with high-quality Moen components. Place your desired components on a single wall or surround yourself in blissful exhilaration. And don't forget the ceiling—a perfect spot to mount a rainshower.

Use body sprays to direct a vigorous flow of water at any, or every, inch of your body. Moen flushmount models feature a wider angle of pivot for more precise aim and more complete coverage.

Go beyond the standard showerhead. Install a hand shower to get a wide range of motion and spray water only where you want it. Ideal for bathing kids and pets, and a safe option for those who need to sit while in the shower.

IMMERSION®

rainshower technology

Until now, rainshowers have been plagued by drooping spray and poor performance due to lack of water pressure across the entire spray face. Exclusive Immersion® Rainshower Technology channels water through a spoke design in the showerhead cavity. This concentrates and magnifies the natural force of water to dramatically enhance your showering experience. Immersion is featured on every Moen® rainshower showerhead.

TWO-FUNCTION RAINSHOWER

Moen's multi-function rainshowers go from an 8" spray face rainshower to revitalizing rinse with the flip of a lever. You get two refreshing experiences from one showerhead.

Rinse

Rain

Personalize your luxury.

When designing or updating your bath, it's the little things that add appeal.

One of the quickest and easiest ways to change your bathroom's style is by updating or adding accessories. For a rather small investment and a short amount of time, you can completely change the look of your bathroom.

From towel bars and robe hooks to shelves and mirrors, Moen® accessories and hardware feature distinctive lines of matching and coordinating accessories designed to complete the style and configurations of your Moen bath collection.
